

Aromathrapy & Essential Oils Pure and Natural

Aromatherapy products are the perfect blend of science and nature, using “old world” formulas combined with the timeless sciences of herbology and aromatherapy. Each of our therapeutic blends and aromatherapy creations are prepared with the intent of enriching our lives as well as our environment.

Essential oils are genuine reflections of the botanicals from which they’re born. Our wide array of essential oils are comprised of 100% pure and natural extracts that, when properly diffused, can encourage wellness, tranquility and inspiration.

Aromatherpy is the diffusion of pure, natural aromatic essences from plants and botanicals for the purpose of promoting harmony of the body, mind, and spirit. Aromatherapy has the ability to affect the well-being of the whole person through the use of one of our most powerful senses-the sense of smell.

Aromatherapy works through two different modes of action. The first is through the effect of aromas on the brain, which work through the olfactory system to affect emotions. The second is through the direct effects of the beneficial substances naturally inherent in the botanicals from which essential oils are derived. Aromatherapy is not intended as a cure for any ailment. Rather, it helps to promote balance.

Using Essential Oils: Diffusion provides continuous distribution of the oils’ scents and active constituents, making it easy to absorb them within the body. The nerve fibers of the olfactory cavity do not pass through the brain’s switching station, therefore the emotional effects of scents are immediately recognized. Diffusion is an effective and natural way to reap the benefits of essential oils; Skin applications: Certain oils can be applied to the skin. 100% essential oils are highly concentrated and need to be diluted for safe, topical use; Bath: Adding just a few drops of your favorite essential oils to a warm bath is a wonderful way to unwind after a long, stressful day.; Cosmetic Additions: Some essential oils can be complementary to your favorite cosmetic and personal care products.; Personal Mists: Therapy in a bottle, a convenient way to take with you everywhere. Our aromatherapy personal mists are a synergistic blend of 100% pure, therapeutic grade essential oils. Choose from Breathe, Calm, Energy, Purity, Uplift, or Well Being.
