

Healthy Prostate Support

If you've been having any unusual symptoms or patterns with urination, particularly with frequency, urgency or hesitance, don't be shy about talking to your doctor. Bring up the symptoms you've been having such as waking up throughout the night to urinate, a weak stream, or going more often than usual.

Depending upon the underlying condition, there are a range of treatments available. In the meantime, ensuring adequate levels of essential nutrients such as vitamin C (oranges and peppers), Zinc (pumpkin seeds and oysters), Lycopene (red fruits and veggies, like tomatoes), vitamin D (sunlight) all have beneficial effects on the body's ability to support prostate health. Nutritional supplements might be right for you too, so be sure to consult your practitioner.

Hazle Drugs brand of "Healthy Prostate Support" is a unique product for Prostate support. Hazle Drugs brand of "Healthy Prostate Support" contains standardized Saw Palmetto, Stinging Nettle and Lycopene along with Pumpkin Seed and Zinc.
