

Herbal Lecture presented at Hazle Drugs Natural Health Center

Clinical Herbalist, Dean Martens, recently presented an Herbal Lecture at Hazle Drugs Natural Health Center.

Dean Martens explained how we can benefit from Herbal Remedies, and how herbs can help various health conditions such as Heart Disease and Diabetes.

“Only the body can heal the body” said Martens in his lecture. When herbs are combined with lifestyle changes, this synergy greatly assists the body’s ability in cleansing, rebuilding its energies and immune system and ultimately rebalancing itself.

One of the herbal blends Dean Martens recommends is the Female and Male Health Assist. They both contain blood/lymph cleanse which cleanses our bodies of toxic materials. Blood/Lymph assists the liver in filtering out blood and helps the lymph with its flow of excretion. Female and Male Health Assist also contain Endless Energy blend which assists the body in creating hormonal balance and rebalancing the energies throughout the body. Immune Booster blend is also added to assist the body in rebuilding its defense system.

By adding the recommended herbal blends along with proper nutrition, nutritional supplements, and exercise you will be able to regain true health and assist your body in healing.

Hazle Drugs carries a complete line of Herbal Assist Blends. For more information on Herbal products, please contact Hazle Drugs Certified Clinical Nutritionist, Bill Spear at 570-454-2476.

Bill Spear, R.Ph., CCN is a Compounding Pharmacist and Certified Clinical Nutritionist. He is available for personal nutritional consultations at Hazle Drugs, 1 E. Broad St., Hazleton, Pa. 18201
